HYDRAULIC TECHNOLOGIES

Bonomini S.r.l. has specialised in the production of siphons and drains for water drainage since 1984. The company is currently expanding strongly in the European, Asian and African markets: the range offered is one of the biggest produced in Italy, with an assortment of over 100 products.

BONOMINI

Bonomini S.r.l. fondata nel 1976 dall'omonimo titolare, Ennio Bonomini, è un'azienda leader nella produzione di sifoni e pilette per lo scarico delle acque in ambiente domestico. La gamma offerta è una delle più ampie prodotte in Italia, in continua crescita secondo le tendenze richieste dai mercati internazionali.

Dallo storico distretto industriale di Lumezzane, in provincia di Brescia, l'azienda è migrata poi nel 1996 verso un più ampio ed innovativo stabilimento alle porte della città, situato a Borgosatollo, che conta ad oggi quattro attività produttive su una superficie vasta di circa 11.000 mq.

Nei primi anni Duemila la Bonomini Srl ha iniziato il programma di internazionalizzazione della propria produzione con l'apertura del sito produttivo di Ningbo in Cina. Oggi la Ningbo Bonomini Waterworks Ltd. (di proprietà interamente della Bonomini S.r.l.) può vantare un sito produttivo di 4.000 mq e vendite in tutto il mondo.

Nel 2005 viene aperta la filiale produttiva sudamericana Bonomini del Mercosur S.A. a Mendoza (Argentina) per supportare le operazioni della Bonomini S.r.l. in tutto il Sud America.

Per rafforzare l'espansione verso i mercati dell'Est Europa, nel 2014 viene aperto un nuovo sito produttivo su di un'area di due ettari alle porte di Belgrado (Serbia). Oggi la Bonomini Adriatic Doo è tra le aziende più innovative nello stampaggio di materie plastiche del paese.

Lo spirito di innovazione tecnica che ha sempre contraddistinto la Bonomini S.r.l. è alla base del notevole sviluppo internazionale dell'azienda.

BONOMINI

BONOMINI S.r.l., established in 1976 by its owner, Ennio Bonomini, is a leading manufacturer of siphons and drains for domestic water drainage. The range offered is one of the broadest produced in Italy and is constantly growing to keep up with international market trends.

In 1996, the company migrated from the historical industrial district of Lumezzane, in the province of Brescia, to a larger and more innovative plant located just outside the city, in Borgosatollo, where it now has four production activities occupying a vast surface area of around 11,000 square metres.

In the early 2000s, Bonomini Srl began its programme to internationalise production, with the opening of the Ningbo production site in China. Today Ningbo Bonomini Waterworks Ltd. (wholly owned by Bonomini Srl) boasts a production site of 4,000 square metres and sales all over the world.

In 2005, the South American production subsidiary Bonomini del Mercosur S.A. was opened in Mendoza (Argentina) to support Bonomini Srl's operations throughout South America.

To strengthen the expansion towards Eastern European markets, a new production site was opened on a two – hectare area on the outskirts of Belgrade (Serbia) in 2014.

Today, Bonomini Adriatic Doo is among the most innovative companies in plastic moulding in the country.

The spirit of technical innovation that has always distinguished BONOMINI S.r.l. is the foundation of the company's remarkable international development.
